deixa ver se entendi essa operação diabo-verde, você acessou o supabase e excluiu diretamente por lá, foi isso??

6 minutes ago

1 message & 1 action

Can't push or pull from git provider

This app has a remote repository configured but you are not connected to any git providers.

5 minutes ago

Determining Replit Git connectivity issue

Essa mensagem não tem nada a ver com o código — é um aviso do Replit sobre a conexão com o repositório Git (GitHub/DitLab). Significa que o Replit está tentando sincronizar com um repositório externo configurado, mas a autenticação do provider expirou ou foi desconectada.

Isso não afeta em nada o funcionamento do sistema IMBRA. O app continua rodando normalmente.

Para resolver, você pode:

1. Ir em Version Control (ícone de branch no menu lateral do Replit)

2. Clicar em Connect to GitHub e reconectar sua conta

Ou simplesmente ignorar se não estiver usando o Git ativamente — os checkpoints automáticos do Replit continuam salvando seu progresso normalmente de qualquer forma.

preciso do git, não achei esse connect to github

Remove all archived student records from the system

marcosbarbosa 7 minutes ago

Up to date with remote

Fix error when displaying birthday contact information

marcosbarbosa 6 hours ago

Archive inactive students and log the operation

marcosbarbosa 6 hours ago

Ensure Word document generation works by fixing library dependencies

marcosbarbosa 6 hours ago

Update dependencies and generate a list of students to archive

marcosbarbosa 6 hours ago

Ensure page configuration is the first Streamlit command

marcosbarbosa 6 hours ago

Update Streamlit to a stable version and adjust configuration

marcosbarbosa 6 hours ago

Improve deletion access and add visual confirmation for users

marcosbarbosa 6 hours ago

Improve error handling for Word document generation

marcosbarbosa 6 hours ago

Add delete button for archived students visible only to administrators

marcosbarbosa 6 hours ago

Fix issues with generating student documents in Word format

marcosbarbosa 6 hours ago

Restore document preview and add Word export option

marcosbarbosa 6 hours ago

Add search and reactivation to archived student list

marcosbarbosa 6 hours ago

Add missing import for regular expression functionality

marcosbarbosa 6 hours ago

Update document generation to use an older version of python-docx

marcosbarbosa 6 hours ago

Adjust title size to fit on a single line

marcosbarbosa 6 hours ago

Update project documentation with system capabilities and strategic suggestions

marcosbarbosa 6 hours ago

Improve login screen with visible labels and security indicators

marcosbarbosa 6 hours ago

Update daily class records to use class ID instead of text
